A. Access configuration page

The screenshot shows a dashboard interface with a top navigation bar. The 'Admin' menu item is highlighted with an orange box and a callout that says 'Click on the "Admin" function on the top navigator'. A dropdown menu is open from 'Admin', and the 'System Setup' option is highlighted with another orange box and a callout that says 'Click on the "System Setup" in the drop down menu'. The dashboard includes sections for 'Pending Orders' (with a pie chart), 'Daily Sales - By Date' (with a bar chart), and several summary cards for sales and customer metrics.

B. Express Checkout Settings

The screenshot shows a web application interface with a blue navigation bar at the top containing menu items: Orders, Payments, Customers, Products, Content, Shipping, Import / Export, Marketing, eBay, and Admin. On the right side of the navigation bar are icons for analytics, settings, user profile, and help. Below the navigation bar, there are icons for a globe, a plus sign, and a location pin, with a green box labeled "Primary Warehouse" next to the location pin. A search bar with the text "Search here..." and a dropdown menu labeled "Customers" are also present. The main content area is titled "System Setup" with a gear icon and a "Help" button. On the left side of the "System Setup" area, there is a vertical list of configuration options: "System Config", "Payment Config", "Payment Options", "Maxmind Fraud Settings", and "Payment Reminder Config". The "Payment Config" and "Payment Options" items are highlighted with orange boxes. Two orange callout boxes provide instructions: the first points to "System Setup" and says "Click on the 'System Setup' in the drop down menu", and the second points to "Payment Options" and says "Click on 'Payment Options' to access the payment settings." The main content area on the right is partially obscured by these callouts but shows a form with a label "Abn number" and an information icon.
